Annual Report

2015 PUBLICATIONS

forestry
university of british columbia

This list includes documents published between April 1, 2015 and March 31, 2016. Names appearing in **bold-face** type are those of UBC Forestry Faculty members. For further information on any of these publications (many of which are available in libraries or online), please contact the appropriate Faculty member directly.

Agbesi K, **Mitchell SJ**, Ruel J-C. 2016. Windthrow modeling in old-growth and multi-layered boreal forests Ecological Modelling 327:105-114.

Aitken SN, JB Bemmels. 2016. Time to get moving: Assisted gene flow of forest trees. Evol Appl, doi:10.1111/eva.12293.

Aitken SN, **Simard SW**. 2015. Restoring forests: How we can protect the water we drink and the air we breathe? Alternatives J 41(1):30-35.

Amoroso MM, **Daniels LD**, Villalba R, Cherubini P. 2015. Does drought incite decline and death of *Austrocedrus chilensis* forests? J Veg Sci 26:1171-1183.

Andrew ME, Wulder MA, Nelson TA, **Coops NC**. 2015. Spatial data, analysis approaches, and information needs for spatial ecosystem service assessments: A review GIScience Rem Sens. 52(3):344-373.

Angel J, LaValle A, Iype D M, **Sheppard SRJ**, Dulic A. 2015. Future Delta 2.0 an experiential learning context for a serious game about local climate change. P 10 *in* Proc SIGGRAPH Asia Symposium on Education, Kobe, South Africa, doi: http://dx.doi.org/10.1145/2818498.2818512.

Atwood TB, Hammill E, Kratina P, Greig HS, Shurin JB, **Richardson JS**. 2015. Warming alters food web-driven changes in the CO_2 flux of experimental pond ecosystems. Biol Let 11:20150785.

Aukema BH, McKee FR, Wytrykush DL, **Carroll AL**. 2016. Population dynamics and epidemiology of bark beetles: 100 years since JM Swaine. Can Entomol, doi:10.4039/tce.2016.5.

Avramidis S. 2016. Dielectric properties of four softwood species at low-level radio frequencies for optimized heating and drying. Dry Technol, doi:10.1080/07373937.2015.1072719.

Baleshta KE, **Simard SW**, Roach WJ. 2015. Effects of thinning paper birch on conifer productivity and understory plant diversity. Scand J For Res 30:699-709.

Baoguo L, Payseur B, Huang K, **Ritland K**, Dunn DW, Qi Z, Guo G. 2016. Estimating relatedness with the presence of null alleles. Genet 202:247-260.

Beaudoin J-M., Bouthillier L, **Bulkan J**, **Nelson H**, Wyatt S. 2015. Community-based enterprise as a strategy for development in aboriginal communities: Learning from Essipit's forest enterprises. J Aboriginal Econ Devel 9(2):24-40..

Beaudoin JM, Bouthillier L, **Bulkan J**. **Nelson H**, Wyatt S. 2016. What does "First Nation deep roots in the forests" mean? Identification of principles and objectives for promoting forest-based development. Can J For Res 46:1-12.

Beckmann C, **Martin K**. 2016. Testing hypotheses about the function of repeated nest abandonment as a life history strategy in a passerine bird. Ibis, 158: 335-342, doi:10.1111/ibi.12361

Beckmann C, Biro PA, **Martin K**. 2015. Hierarchical analysis of avian re-nesting behavior: mean, across-individual, and intra-individual responses. Behav Ecol Sociobiology 69:1631-1638.

Bedelean B, Lazarescu C, **Avramidis S**. 2015. Predicting RF heating rate during pasteurization of green softwoods using artificial neural networks and Monte Carlo method. Wood Res J 60(1): 83-94.

Beiler KJ, **Simard SW**, Durall DM. 2015. Topology of *rhizopogon* spp mycorrhizal meta-networks in xeric and mesic old-growth interior Douglas-fir forests. J Ecol 103(3):616-628.

Bett NN, **Hinch SG**. 2015. Attraction of migrating adult sockeye salmon to conspecifics in the absence of natal chemical cues. Behav Ecol 26(4):1180-1187.

Bett NN, **Hinch SG**. 2015. Olfactory navigation during spawning migrations: A review and introduction of the Hierarchical Navigation Hypothesis. Biolog Rev, doi:10.1111/brv.12191.

Blight L, Dreever M, **Arcese P**. 2015. A century of change in glaucous-winged gull (*Larus glaucescens*) populations in a dynamic coastal environment . The Condor: Ornithol Appl 117(1):108-120.

Boyle WA, **Martin K**. 2015. The conservation value of high elevation habitats to North American migrant birds. Biol Cons 192: 461-476.

Brar S, Tsui CKM, Dhillon B, Bergeron M-J, Joly DL, **El-Kassaby YA**, **Hamelin RC**. 2015. Colonization history, host distribution, anthropogenic influence and landscape features shape populations of white pine blister rust, an invasive alien tree pathogen PLoS ONE, doi:10.1371/journal.pone.0127916.

Brouwers C, van Dongen R, Matusick G, **Coops NC**, Strelein G, Hardy G. 2015. Inferring drought and heat sensitivity across a Mediterranean forest region in southwest Western Australia: a comparison of approaches. Forestry 88(4): 454-464.

Brouwers N, **Coops NC**. 2016. Decreasing net primary production in forest and shrub vegetation across southwest Australia. Ecolog Indic, doi:10.1016/j.ecolind.2016.01.010.

Bulkan J. 2015. Associations in name only: Small Loggers' Associations in Guyana. Int For Rev 17(2):128-140.

Bulkan J. 2016. Hegemony in Guyana: REDD-plus and state control over indigenous peoples and resources. Chap 6 *in* The Caribbean Aesthetics, World-Ecology, Politics, Campbell C, Niblett M (eds) Liverpool University Press, Liverpool, UK.

Burke JL, **Carroll AL**. 2016. The influence of variation in host tree monoterpene composition on secondary attraction by an invasive bark beetle: Implications for range expansion and potential host shift by the mountain pine beetle. For Ecol Manage 359:59-64.

Cambero C, Alexandre M, **Sowlati T**. 2015. Life cycle greenhouse gas analysis of bioenergy generation alternatives using forest and wood residues in remote locations: a case study in British Columbia, Canada. Res Conserv Recycling 105: 59-72.

Cambero C, **Sowlati T**, Marinescu M, Roser D. 2015. Strategic optimization of a forest residue to bioenergy and biofuels supply chain. Int J Energy Res 39: 439-452.

Cambero S, **Sowlati T**, Pavel M. 2015. Economic and life cycle environmental optimization of forest-based biorefinery supply chains for bioenergy and biofuel production. Chem Eng Res Des 107:218-235.

Cao L, **Coops NC**, **Innes JL**, Dai J, She G, Ruan H 2016. Tree species classification in subtropical forests using small-footprint full-waveform LiDAR data ISPRS. Int J Appl Earth Observ, doi:10.1016/j.jag.2016.01.007.

Cao L, **Coops NC**, **Innes JL**, **Sheppard SRJ**, Fu L, Ruan, H, She G. 2016. Estimation of forest biomass dynamics in subtropical forests using multi-temporal airborne LiDAR data. Rem Sens Environ, doi:10.1016/j.rse.2016.03.012.

Cass C, Peraldi A, Dowd PF, Mottiar Y, Santoro N, Karlen SD, Bukhman YV, Foster CE, Thrower N, Bruno LC, Moskvin OV, Johnson ET, Willhoit ME, Phutane M, Ralph J, **Mansfield SD**, Nicholson P, Sedbrook J. 2015. Effects of phenylalanine ammonia lyase (PAL) knockdown on cell wall composition, biomass digestability, and biotic and abiotic stress response in brachypodium. J Exp Biol 66(14):4317-4335.

Chakraborty D, **Wang T**, Andre K, Konnert M, Lexer MJ, Matulla C, Schueler S. 2015. Selecting populations for non-analogous climate conditions using universal response functions: the case of Douglas-fir in central Europe. PLOS ONE, http://dx.doi.org/10.1371/journal.pone.0136357.

Chan G, **Evans PD**. 2015. Comparison of the surface checking of acetylated pine and the tropical hardwood ipe exposed to accelerated weathering. Pp 167-168 *in* Book of Abstracts, 8th European Conference on Wood Modification, Helsinki, Finland.

Chan G, Sebe G, **Evans PD**. 2015. Termite resistance of Scots pine modified with vinyl acetate, vinyl benzoate or phenol formaldehyde resin. P 86 *in* Proc Canadian Wood Preservation Association Meeting, Vancouver.

Chance CM, **Coops NC**, Crosby K, Aven N. 2016. Spectral wavelength selection and detection of two invasive plant species in an urban area. Can J Rem Sens 42:1-14.

Chance CM, Hermosilla T, **Coops NC**, Wulder MA, White JC. 2016. Effect of topographic correction on forest change detection using spectral trend analysis of Landsat pixel-based composites. Int J Appl Earth Observ Geoinf 44:186-194.

Chandra R, Chu Q, Hu J, Zhong N, Lin M, Lee J-S, **Saddler J**. 2015. Accessory enxymes influence cellulase hydrolysis of the model substrate and the realistic lignocellulosic biomass. Enzyme Microb Tech, doi:10.1016/j.enzmictec.2015.06.020.

Chandra R, Gourlay K, Kim CS, **Saddler JN**. 2015. Enhancing hemicellulose recovery and the enzymatic hydrolysis of cellulose by adding lignosulfonates during the two-stage steam pretreatment of poplar. ACS Sust Chem Eng 3(5):986-991.

Chandra R, Chu Q, Hu J, Zhong N, Lin M, Lee J-S, **Saddler JN.** 2016. The influence of lignin and mechanical pulping of poplar to achieve high sugar recovery and ease of enzymatic hydrolysis. Biores Tech 199:135-141.

Chandra R, Arantes V, **Saddler JN**. 2015. Steam pretreatment of agricultural residues facilitates hemicellulose recovery while enzyme accessibility to cellulose. Biores Tech 185:302-307.

Chang F-C, Kadla JF, **Lam F**. 2016. The effect of wood flour content and coupling agent on the dynamic mechanical and relaxation properties of wood-plastic composites European J Wood Wood Prod 74(1):23-30.

Chang CY, Zubilewich A, Fréchette E, Unda F, **Mansfield SD**, Ensminger I. 2015. Sensitivity of cold acclimation to elevated autumn temperature in field-grown *Pinus strobus* seedlings. Front Plant Sci, doi: 10.3389/fpls.2015.00165

Chang W-Y, **Gaston C**. 2015. A trade-flow analysis of the global softwood log market: implications of Russian timber export tax reduction and New Zealand's timber production restriction. Forestry, doi:10.1093/forestry/cpv038.

Chavardes RD, **Daniels LD**. 2016. Altered mixed-severity fire regime has homogenized montane forests of Jasper National Park. Int J Wildland Fire 25:433-444.

Cheng K, **Evans PD**. 2015. Optimizing profiling to reduce the checking of Pacific silver fir decking. Pp 90-108 *in* Proc Canadian Wood Preservation Association Meeting, Vancouver.

Cheng KJ, **Evans PD**. 2016. A note on the surface topography of profiled wood decking. Aust Fores, doi:10.1080/00049158.2015.1124826.
